FORWARDING & COMMISSION.—Alanson Sweet, Storage, Forwarding and Commission Merchant, would respectfully inform the public that he has purchased the Warehouse and Wharf lately occupied by Sweet & Jervis, near the mouth of the Milwaukie river; and that he has also lately erected a very large and commodious Warehouse on the river, immediately below the lower bridge, and that he will continue the business on his own account. His lower wharf can be conveniently approached by boats and vessels from the Lakes, and teams from the country, being located on the country side of the river, below all the shoals, bends and bridges, which render it impossible for the largest class of boats and vessels to go further up the river. A good supply of Steamboat Wood always on hand.

SODA & BOST

Milwaukie Daily Sentinel.

☞ Advertisements must be handed in before three o'clock in the afternoon of each day, to insure insertion in the next morning's paper.

Thursday Morning, December 25.

☞ In order to allow all connected with the Sentinel Office an opportunity of participating in Christmas holiday, no paper will be issued to-morrow.

☞ Most of the Loco Foco papers in this region "go the whole" in their puffs of the President's Message. The Southport Telegraph, however, is an exception, and frankly admits that the talk about French and English interference in the Texas affair might better have been omitted. The Telegraph is at a loss to know, too, how Mr. Polk proposes to prevent the increase of foreign settlements on this continent. Mr. Polk, very probably, is equally in the dark on this subject; but he thought it was "a good thing to say" and so he said it.

Disease among the Turnips.—The Liverpool Mercury of the 14th ult. publishes an extract of a letter from a magistrate of the County of Lowth, stating that "the destruction of the turnip crop is much more complete than that of the potato. All the Swedes are rotten at the core; yet their external appearance is as good as usual." Accounts from the south of England also state that the turnips there have been attacked in a similar way.

A Large Whale.—Whale ship Menkar, of New Bedford, arrived at Fayal, Sept. 16. She took a whale on the passage out, which yielded one hundred and forty barrels of sperm oil! Blubber sufficient to make about 10 bbls. of oil was lost in "cutting in."

One of the Effects of the Tariff of '42.—The coal trade of Wyoming Valley in '44 amounted to 111,900 tons. This year it has amounted thus far to 200,000 tons, caused mainly by the numerous new and extensive iron establishments in Danville, Penn.

☞ The N. O. Delta of the 1st reports a premature funeral. A clerk in the Bee office died, as was supposed, of apoplexy, and when the funeral services were in progress next day the assembly were startled by a movement in the coffin. He was revived and the physician administered to him, but with no hope of restoration.

Holiday Presents.—Those who are in search of Holiday presents for their wives, sweethearts, children, or friends, need not travel far to get suited. In the way of handsome Magazines, elegant Annuals and books with "goodly outside" and contents to match, the stores of Messrs. Hale & Hopkins, Wisconsin street, I. A. Hopkins, 146 U. S. Block, and S. L. Rood, East Water street, offer a choice and varied assortment. Of jewelry and trinkets, there is a handsome show at Dagget & Richardson's, in the U. S. Block, who are connected with an extensive Eastern Manufactory. Almonds, raisins, fruit and spices of all kinds, may be found at Clarke's Drug Store and at the "People's Store" in the West Ward. Emery displays in his new and neat establishment every known variety of candies and toys. While at the numerous Dry Goods and Fancy Stores in town, may be found dresses, shawls, scarfs, ribbons, &c. of every quality, pattern and price.

☞ The Courier's Washington correspondent "pouts" over the election of Mr. Dickens as Secretary of the Senate, and seems disposed to scold the three Loco Foco Senators who voted with the Whigs. He ascribes the votes of Messrs. Benton and Bagby to "personal predilections," and "excuses" Mr. Haywood on the ground of "a tender attachment for an accomplished young lady, the daughter of Mr. Dickens"! Thus it seems that Cupid triumphed over Cæsar.

"The Court Journal."—The Courier, by the help of its Washington correspondent, is enabled to keep its readers advised of the "fashionable" movements of the "court circles" at Washington. Thus, under date of Dec. 9, its correspondent furnishes, among other equally important and refined gossip, the following items:

"The Secretary of the Treasury has worn so much of himself out in laboring upon his report and communications to Congress, that Mrs. W. will not let him leave her nights, for fear he will get lost or blown off.

"Secretary Marcy is confined at home for want of clothes, having worn out the seat of his unmentionables while employed in writing his report, and Mrs M. is employed in repairing them for next Cabinet levee."

We should think that both these functionaries, Secretary Marcy in particular, would be exceedingly obliged to the Milwaukee Courier for thus proclaiming to the world their "weak points."

☞ The Courier editor has found in the Sentinel of Friday last "wood" misprinted for "wool." Upon the strength of this "discovery" he attempts a clumsy witticism, which would be more successful if his readers were as great dunces as himself.

Quarterly Journal of Agriculture.—This is one of the most valuable of the numerous works to which the increased attention paid to Agriculture within a few years past, has given birth. It is conducted by Doctors Emmons and Prime, of New York, and is published in very neat form and style by C. Van Benthuysen & Co. of Albany.—The subscription price is three dollars a year; reasonable enough considering the amount of information conveyed in the work, and the high order of talent employed in its preparation. Among the contributors to the second number we recognize some of the first names in New York. A copy may be seen at the bookstore of Hale & Hopkins, Wisconsin street, where subscriptions for the work are received.

Very Likely.—Long John Wentworth, writing from Washington on the subject of the President's Message, indulges in the following sagacious speculation as to the probable effect of that paragraph in it which scolds at France for meddling in the Texas matter:

"Mr. Polk's cut at our "Ancient Ally" must be popular with the masses in France, and *may, possibly, overthrow the Guizot ministry.*"

☞ Among the "fixed facts" which distinguished the recent election in New York, is the significant one, that the Liberty Party held the "balance of power" in four out of eight Senate Districts—to wit: in the 4th, 5th, 6th and 7th.

[Chicago News.

True enough; and another "fixed fact" is, that they made use of that "balance of power," as heretofore, to defeat the Whig and elect the Loco Foco candidate; which seems, indeed, to be the only practical end and aim of "Third Party organization."

For the Daily Sentinel.

Gen. King:

In answer to the inquiry in your yesterday's paper, "What is our Rail Road Committee about?" I have to inform you that none of the other members of the Committee having called upon or conferred with me on the subject, I caused a notice for the meeting of the Committee at my office on the 18th inst to be published in the Sentinel and Gazette on the 17th. On the evening noticed for the meeting of the Committee, not a soul of them appeared! nor has anything whatever been done on the subject to my knowledge.

If it was deemed important to have the Committee consist of more than one person, no individual member or any members short of a majority should arrogate to themselves the right or responsibility of final action in the premises—when such action must be attended with an expense of several dollars, in procuring memorials or petitions to be printed for circulation, and the labor of a correspondence with different portions of the Territory interested in the contemplated improvement, no individual member of the Committee should be asked or expected to make that expenditure and perform that labor. At all events, I will not do it. If the other members of the Committee do not feel sufficient interest in the subject to meet my appointment, or make an appointment themselves and do something to meet the just expectations of the public, I will no longer voluntarily occupy a position where I must innocently share a portion of the blame attached to those who neglect important interests. I therefore resign my station as Chairman, and recommend the appointment of P. Potter, Esq., as sole Committee—he being the only person who has called upon me with a view to the necessary action on the subject.

PETER YATES

Milwaukie, Dec. 23, 1845.

☞ The Oswego Advertiser states that a number of large propellers, which have proved so successful upon Lake Erie, are contracted to be built this winter, and that arrangements are making for the establishment of a daily line of these steam vessels next season, between Oswego, Chicago, and intermediate ports.

Marine.—The Buffalo Courier is informed by Mr. White, of the steamer Franklin, that the new schr. Henry Clay was cut into by the ice in attempting to enter the Detroit River, and lies there sunk to the bottom. She was in ballast. The Franklin failed after several attempts, in reaching Monroe, and was obliged to put back to Huron, where she is laid up.

U. S. Senate's Officers.—Judge Sturgiss of Georgia is elected Secretary of the Senate; Robert Beale of Virginia, Sergeant-at-Arms; Dr. Seth Salisbury of Pennsylvania, Door Keeper; and Messrs. Ritchie & Heiss for Printers.

[Racine Advocate.

Not quite, Friend Advocate. The above named individuals were indeed nominated in caucus for the offices mentioned, but the Senate refused to "advise and consent" to their appointment. Mr. Dickens was elected Secretary over Judge Sturgiss, and Mr. Holland door-keeper over Dr. Salisbury, by the votes of the Whig Senators added to those of Messrs. Benton, Bagby and Haywood. We observe that some of the rabid "Polk and Texas" organs propose to read Messrs Benton & Co. out of the party for their refusal to submit to the decrees of King Caucus.

Ingenious Expedient.—A workman who, by means of a rope, had ascended to the top of an immensely tall chimney, in Preston, England, found himself in an awkward predicament, by losing his rope. After turning the matter over in his mind a few minutes, he unravelled his stockings, lowered the length of worsted to the ground, and a piece of fine cord being attached, he was soon enabled to hoist the rope up again.

The two Roses.—Being with my friend in a garden, we gathered each of us a rose. He handled his tenderly, smelt to it but seldom and sparingly. I always kept mine to my nose, or squeezed it in my hand, whereby, in a very short time it lost both its color and sweetness: but *his* still remained as sweet and fragrant, as if it had been growing upon its own root.

"These roses," said I, "are the true emblems of the best and sweetest creature-enjoyments in the world; which being moderately and cautiously used and enjoyed, may for a long time yield sweetness to the possessor of them; but if once the affections seize too greedily upon them they quickly wither in our hands, and we loose the comfort of them, and either through the soul's surfeiting upon them, or the Lord's righteous and just removal of them, because of the excess of our affection to them."

It is a point of excellent wisdon, to keep the golden Bridle of Moderation upon all the affections we exercise on earthly things, and never to let slip the reins of the Affections, unless when they move toward God, in the love of whom there is no danger of excess.—[Flavel.

A passenger who arrived at New Orleans on Sunday evening, 30th ult. on the steamer St. Landry, reports the loss of the steamer Arkansas, No. 5, Capt. Pennywit, bound down from Louisville for that port. She was run into on the morning of the 28th ult., by the steamer Champion going up, when about two hundred yards from the landing at Natchez. The Arkansas was heavily laden with flour, hemp, and other western produce, and a large quantity of live stock. She sunk in about five minutes after the contact, in ten feet water. The boat is a total loss; only a part of of the cargo on deck will be saved. The boat was partially insured. No lives were lost.

Natural Instinct.—For some time past, the workmen engaged in renovating the Glasgow cathedral had observed an unusual concourse of sparrows coming regularly to a hole in one of the slanting walls of the old consistory court, which is now being taken down, and holding a great ado, 'cheeping and chirping' and apparently feeding some birds within. For a brief space this was thought nothing of, as it was known the young brood were just about flying, and it was imagined it might be some of these, not so strong as the others, which the parents were feeding. The meetings being continued, however, a gentleman in the neighborhood induced the men to get a ladder, and examine the cause of all those noisy doings; when it was found that the female sparrow, after all her brood had left her, had got so warped about the leg with some of the threads composing her nest that it was impossible for her to escape, the leg being considerably swollen by the attempts which she had made to effect it.

In the above dialemma, how beautiful it is to perceive that she was constantly condoled with, and her wants supplied by her fellow-sparrows—sparrows of humanity and generous feeling they must have been. Let mankind take the lesson.

☞ "Don't stand there loafing," said a professor at Cambridge to three students, standing where they shouldn't. "We're not loafing," said Nat; "there are only three of us, and it takes *'leven* to make a loaf."—[Boston Post.

Let us have Free-Trade!

That is, if we *are* to have it, let it be *real* Free-Trade, not partial and delusive. And if the doctrines of the Treasury Report are within sight of soundness, how can their supporters tolerate *any* Tariff at all? Those doctrines imply that all duties are unequal and unjust—that they tax the People ten dollars for every one they put into the Treasury. Mr. Walker says only three for one, wishing to be believed by some; but his premises prove ten to one at least. If every duty raises by so much the price not only of imported articles but of all which come in competition with them, then the consumers are taxed by the Tariff full *ten* dollars for every one that gets into the Treasury.—How we are robbing each other! Why don't those who believe these doctrines walk straight up to the work and call for Direct Taxes and *No* Tariff, as well as for a Hard Money Treasury? Will they answer?

—But this is not all: A farmer writes us a long and sensible letter (which we regret that we have not room for) demanding *Free-Trade in Shipping*. He says he produces Grain, which he ships coast wise to market. His greatest expense is for transportation. Very often he could get it carried to its destination by a Foreign ship for one-half or two-thirds the American charge, but the laws absolutely *prohibit* such transportation. No other than an American vessel can carry this Grain at any price. The farmer says he is satisfied with things as they are, but if the Commercial Interest is to have Free-Trade, *he* wants a chance in. Isn't that fair? What say you, Mr. Walker? You are very sweet on the farmers in regard to the alleged 'monopoly' of American Manufacturers; are you equally strenuous against the *real* monopoly of American Shippers? Why so silent in your Report?

—And again: A friend of the Trading and Shipping interest calls for more Free Trade.—He says the slave-breeders of Virginia, Maryland, &c. have an absolute monopoly of supplying Texas and other South-western markets with negroes—a monopoly which enables them to sell their great staple at $1,000 per head for likely grown persons, while he would agree to furnish as good, with Free Trade, in any quantity for $200 each. He says it is all stuff to talk of abhorrence for the Slave-Trade, while Slatter & Co. of Baltimore, and that big dealer at Washington who had the Polk, Dallas and Texas flag flying from his Slave pen through the Presidential contest, are prsecuting it in open day, under the protection of the U. S. army and navy. If our Government will *really* suppress the Slave-Trade, he will acquiesce; but if not, he insists that it is far better to find human merchandise among the pagan, brutal, fighting savages of the African coast than among the Christian, civilized habitations of Virginia and Maryland, where wives have a prejudice against being sold away from their husbands and children. If the Slave-Trade is to go on and the Tariff to come off, he asks for Free-Trade. Why not?

These are but a few items. Hurrah for Free Trade!—[N. Y. Tribune.

From the Albany Evening Journal.

The Barometer.

We find in the Cleveland Herald of Thursday last, the following table of the movements of the Barometer at that place, during the eventful week of storms, which had just closed:

Friday, Nov. 21—12 M—Cloudy with occasional sunshine, wind NW, blowing fresh and too heavy for steamboats.

BAROMETER.		THERMOMETER.	
8 o'clock AM.	6 o'clock PM	8 o'clock AM.	6 o'clock PM.
29.08	29.18	42.	

Saturday Nov. 22—12 M.—Clear and cloudy—light winds from SE.

8 o'clock AM.	6 o'clock PM.	8 o'clock AM.	6 o'clock PM.
29.20	29.06	42.	46.

Monday, Nov. 24—12 M—On Saturday afternoon the barometer fell rapidly 20-100, indicating an immediate gale, which commenced soon after dark, from the West, and continued with severity all night, and through yesterday, the weather making ice freely in sheltered places—a slight fall of snow last evening. To-day the weather is cold, and a fine breeze from West.

8 o'clock AM.	6 o'clock PM	8 o'clock AM.	6 o'clock PM.
29.50	29.50	26.	42.

Tuesday, Nov. 25—12 M—Wind South and brisk—weather cloudy and cool.

8 o'clock AM.	6 o'clock PM	8 o'clock AM.	6 o'clock PM.
29.31	29.—	51.	48.

Wednesday, Nov. 26—12 M—Weather hazy—wind East and light.

8 o'clock AM.	6 o'clock PM	8 o'clock AM.	6 o'clock PM.
29.16	29.20	42.	52.

Thursday Nov. 27—12 M—The light wind of yesterday changed during the night to a Northerly "fresh and fierce" with a light fall of snow. The gale was heavy enough to cause further disasters on the Lake.

8 o'clock AM.	6 o'clock PM	8 o'clock AM.	6 o'clock PM.
29.10		26.	

A moment's examination of this table, will show the unerring certainty of the predictions of this invaluable instrument. Suppose two vessels to be in Cleveland harbor, loaded and ready to sail for Detroit or Buffalo. The master of one has a Barometer, and relies implicitly upon it. On the other hand, his colleague—like too many of the Lake Captains—has no faith in such trash, and trusts solely to his own knowledge of the heavens above and the waters beneath! The former, on Friday, Nov 21, though the Lake is boisterous, perceives the Mercury rising, and prepares to leave at the earliest moment, and by thus saving 12 or 18 hours reaches his destined port in safety. The other waits until Saturday, and then trusts to a smooth Lake and "light winds from S. E." leaves Cleveland, certain that he is right. Had a friend whispered to him that the Barometer was at that moment predicting a violent gale, he would have laughed at the admonition!

The record for Monday shows which of the two was the true prophet. The weather-wise captain could scarce have made his offing before encountering a gale from the West, which would either have sent him to the bottom, or stripped his craft as bare as when she was on the stocks. Monday, Tuesday and Wednesday are again marked as days of safety. But on Wednesday afternoon the falling Mercury again warns the Mariner to remain in port, and the storm of Thursday confirms the truth of its prediction. It is thus the Barometer ever vindicates itself. And in view of the disasters of past years upon our Western Lakes, it is surprising that that instrument is not made an indispensable appendage to every craft that floats upon those inland seas. The contrary course is certainly a penny-wise-pound-a-polish policy. We do no believe the Marine Insurance Companies in N. York would insure a vessel at any premium, were they told that she was to proceed on her voyage without a Barometer.

It was stated some time ago, that the Administration had been making a dilligent but unsuccessful effort to ascertain the whereabouts of Delazon Smith sent abroad by Mr. Tyler, in order to recall him. We now learn that Mr. Polk has at laft succeeded in discovering that he is at the capital of the Republic of Ecuador, S. A., where he was sent *to find out whether it had a Government*. Mr. Polk could make out where he was only by stopping his supplies.—Then Delazon "turned up" very quick.

[Lou. Journal.

The Whole Hog.—We saw the other day (says the Louisville Journal) at the reception-room of dead Hogs, of the Messrs. Mills, in this village, three Porkers that were well worth noticing, and we doubt whether they can be beat by any of our county folks. They were raised and fattened by A. A. Johnson, Esq., of Deer River—were eighteen months old, and weighed—

The heaviest,	586 lbs.
" 2d do.	544 "
" 3d do.	542 "
Total weight of the three,	1672!

Lowell Girls.—A lad lost his arm in one of the Lowell factories by getting entangled in the machinery. The company kindly gave him $300, and the hands employed made up *Three Thousand Dollars* for the unfortunate boy!

Scraps of Useful Information.

course no. 1.

Mr. Editor:—I see that many of the newspapers of the country are copying into their columns "Scraps of Curious Information," from the New York Gazette. While reading the interesting medley of facts they embrace, I conceived the idea that a few scraps of more specific and sober information, which I have collected with some care, and for which I would humbly solicit an admission into some corner of your paper.

The mercantile shipping in the civilized world amounts about 8,000,000 tons, which is worth, new and old, $30 per ton, and nets, clear of interest, insurance, &c. 10 per cent, or $24,000,000 per annum. The appropriation to the British Navy, for the current year is $33,620,200!! Is not this a sober fact? that the annual expenses of one nation's navy exceeds the net profit of all the mercantile shipping owned by the civilized world?

The war debts of the European nations amount to $10,000,000,000. It would require the labor of four millions of men, at $150 per annum for each man, to pay the interest of this sum at 6 per cent. To pay the principal it would be necessary to levy a tax of at least Ten Dollars on every inhabitant of the globe! Another fact, rendering this more impressive, may be found in the "scraps of curious information," that no heathen nations are in arrears for the butcheries they have perpetrated on the human race. They pay cash down for all that is done for the devil under their hands. Christian nations alone "go on tick" for that kind of service.

From March 4th, 1789, to June 30th, 1844, our Government expended on the War Department $603,438,851. The interest of this sum, at 6 per cent, would build Whitney's great railroad from the Lake to the Pacific, of 25 miles in length, at $15,000 per mile; and then erect a high way for the commerce and communication of the family of nations, which should be reckoned in all coming time one of the greatest enterprizes that ever blessed the race.

In 1842, there were produced in the United States, 100,000,000 bushels of wheat, and 140,000,000 bushels of Indian corn; which at $1 per bushel for the former, and 25 cents for the latter, were worth $135,000,000. Fifteen per cent, clear of the interest of the capital invested in lands, implements, hired and personal labor is a liberal estimate of the profit accruing to the wheat and corn grower.—Then the profit of this amount of grain would be $20,' 5,000. The appropriation to the army and navy, during the same year, was $20,150,301. In other words, the army and navy ate up the whole harvest of wheat and corn throughout the Union. Will not the hard-working farmers think on this fact.

The Government, though carrying on extensive armories of its own, has recently contracted with a private company in Connecticut, for the supply of 30,000 pistols, at $6.50 each; or 195,000 dollars worth of these weapons so much in vogue with duellist and assassins. The American Bible Society congratulates itself on receiving, the past year, $166,653, the aggregate of all that had been given through the Union for the dissemination of the Word of Life at home and abroad. So it goes; Christendom expends more in one year on the means and instruments of human slaughter, than has been given to the promulgation of the Gospel since Jesus Christ died on the cross! E. B.

Worcester, Nov. 18, 1845.

The Greatest Speed Yet.—The greatest speed ever accomplished on Camden and Amboy Railroad was made on Tuesday evening by the locomotive with the President's Message. The distance from Camden to New Brunswick, sixty-four miles, was performed in one hour and thirty-five minutes, running time, and one hour and forty-five minutes, including stops.—[Phila. paper.

COTTAGE INN—By Jesse M.

VAN SICKEL, (successor to W. Porter,) Walker's Point, South Ward, Milwaukie, W. T. He has recently taken the above house for a term of years, and has refitted it in a comfortable style, and furnished it for the convenience of the traveling public.
J. M. V. S. takes this method to inform his friends, acquaintances, and the public generally, that he will be glad and happy to wait upon them, and hopes by his strict and personal attention to business, to make it a home for all those who will favor him with a call. Teamsters and Farmers, especially, will find it a good house. His Table, Lodgings, Stable and Bar, will not be surpassed on the Point, in the east, (or the old Cottage Inn, not excepted.)
N. B.—The location of my house is near 4 store houses, and wheat buyers, and I commend to the River, where most of the eastern and southern boats stop daily. Baggage taken to and from Boats in the city, free. Try me once, and you will call again, without doubt. oct1-6m

NEW BOOT AND SHOE STORE...

Please call and see. dec1 C. WALL.—East Water st.

THE PEOPLE'S STORE....A couple

of sturdy Farmers one coming to, and the other returning from town, on the Green Bay road, after having passed the usual salutations, were heard making the following remarks:
"Well, neighbor Dotson, I have come to the conclusion that it matters but little to us who is our Delegate in Congress, or which party maintains the ascendency, so long as our interests and the interests of our common country are protected, but the great question for us in our new homes where the people earn their bread by the sweat of the brow, is to discover, first, where we can get the most money for the products of our labor; next, where we can get the greatest amount, and the best qualities of the necessaries of life for that money. What say you, eh?"
"What say I, neighbor Simonds? Why, I say that my viewers incide with yours exactly on that subject. Nothing has given me so much trouble as them confounded Milwaukie Merchants and seeing you on your way home with your wagon full of the good things, I was just going to ask you who you sold your Wheat to—what you got for it, and where you did your trading. I suppose you have no objection to telling me?"
"No oblige you at all, neighbor Dotson, I will answer your questions with the greatest pleasure. I sold my Wheat to SAYR's—got seventy cents per bushel hard dollars for it, and done my trading at the PEOPLE'S STORE. I have traded there pretty much altogether ever since the Store first opened. He always pays me the highest price for what I take to market, and sells me whatever I want a great deal cheaper than I can buy it any other store—Cloth at four shillings, 8ds as at from two shillings and sixpence to one dollar; ill do at one dollar and quarter. Molasses at four shillings good Sugar at nine cents, and my Wife says that his six shilling Tea is better than we ever bought in York State for one dollar, besides his stock is one of the very largest in town. Why, if one quarter of the stores on the east side of the river had such stocks, they would make the greatest house about it you could imagine. You can scarcely call for an article that he has not got—no old shop keepers lying around; everything looks new and good, and how he can afford to sell so cheap when all the other store keepers are complaining about the advance of prices, I cannot tell, but certain it is the People have found him out, and there are constant streams of customers going in and out of his store, and it is really amusing to see how happy they all look as they go home with their arms, baskets and wagons filled with Dry Goods, Groceries, or whatever else they may have wanted; not only that; he treats his customers, rich and poor—Americans—Irishmen—Dutchmen—all men—alike. It is emphatically the People's Store, and I recommend you and all my friends and neighbors who want to be prepared for a rainy day, to sell your produce and do your trading at HARRY SAYR' People's Store."
"Where did you say that store is, neighbor Simmons?"
"In the West Ward, near the American House, just before you turn to cross the Spring street bridge. You'll see a large sign over the door——"

Also—Sole Leather, Cowhide, Cowhide, Calf and Kip Skins, Roans, White and Pink Linings Also—Shoe Pegs, by any quantity.
We were told in the whole young that experience was the best schoolmaster, and the Poet saith "from what can we reason but from what we know?" Who would think of going to a Plow maker to get a good carriage, or to a Horse Doctor to get a tooth pulled? Come, then, all ye upward of twenty years' experience on the immortal tortured Heels and Shoes will positive vote in the expectation of getting an article not "like Pindar's razors, made to sell," but something, figuratively speaking,
"Which ever new, nor subject to decrease
Shines and grows brighter with the length of days"
If, in view of the honor and emoluments which attend upon the above avocations, any one should to Fill the seeds of envy germinating in his bosom, let him consider in such a mind being that
"Of nature doth you most suspect,
Some times she stands and sometime frowns
To best of keep a cheerful heart,
Some will grin, and some good own"
N. B. All kinds of work in our line will be done with despatch in a neat, workmanlike manner.

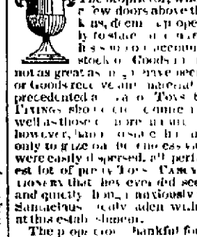
EMPIRE Hot Air COOKING STOVE.

L. J. FARWELL—Rogers' Block, on East Water street—Now offers to the public this approved Cook Stove, of different sizes, to suit small families, or large Boarding Houses or Hotels. The high character which this Stove has obtained wherever it has been introduced, is a guaranty of its excellence. The complete success which has attended the introduction of hot air into the oven, and other improvements in the construction of the Empire Stove, justly lays in warranting them to bake equally as well as a brick oven, and to perform all other operations in cooking with 50 per cent less fuel than any other cooking stove now in use.
An examination of the stove will ensure its sale, and a trial of it fully realize all reasonable expectations.



THE EXCITEMENT at EME-

RY'S CONFECTIONERY!!—SPARKS OF FACTS—A few doors above the Post Office, at Hyde & Hopkins, dealer in proper articles for ladies' leave respectfully to state to the ladies of the movement about Rosemond Cream, the sale of so large a stock of Goods it has not been expected as not as great as it has proved to be, did his shop or Goods receive the universal homage. For such an unprecedented sale of Toys, Fancy Articles and Sugar Plums, since the commencement of the present, as well as those in the country comprising six stores) were easily supersed, all perfectly satisfied that the greatest lot of pretty Toys, Candy Boxes, Dolls and Confectionery that ever did see, is to be found at EMERY'S, and quickly bring anxiously was the annual visit of Old Santa Claus, to be laden with the good things to be found at this establishment.
The proprietor thankful for past favors, and expecting in a few days to move into his new shop, next opposite his present stand will not be able to spread on his stock of valuables and respectfully solicits a continuance of the patronage to be asked. The public generally are invited to call and examine his establishment, where in the variety and cheapness of goods, money may be rid. Molasses Candy as usual, the reduced rates.

WEST WARD FOREVER!....R

HOUGHTON takes this method of informing the customers of the late firm of R. HOUGHTON & Co. and the public generally, that the business in future will be conducted by him at the *old stand*, where he has now on hand a general assortment of DRY GOODS, GROCERIES, CROCKERY, GLASSWARE, HARDWARE, NAILS, PAINTS, OILS, &c. all of which will be offered for cash or usual advance from cost, on cash or most kinds of country produce.
In buying the cash or ready pay system to the cheapest, and eventually the most profitable for the buyer as well as the seller, that principle will be adopted and strictly adhered to. He does not wish to "spout" and boast of his long residence and extensive acquaintance in New York, great facilities and coordinate advantages in purchasing Goods, &c., or even say he will sell *cheaper* than anybody else, but he does wish to say in a modest way (since and believe,) and can be prompted by a "nimble sixpence" rather than a slow shilling, that I will sell as cheap as the best, and the cash of which principles I intend to do business upon, and the satisfaction of every one who may favor me with a call.

SANDS' SARSAPARILLA.—Fever one of the most frequent and dangerous diseases to which the human body is liable. Its first impression is upon the nervous system; then the vessels of the skin become deranged, producing dryness and burning heat. After this the general system is involved, and the patient sinks beneath the attack, unless relieved by appropriate remedies. Nearly every day new cases multiply are the cause of fever, being inhaled throughout the atmosphere, and then breathed into the lungs, when the poison combines with the impure fluids of the body and is carried by the circulating organs to the remote ramifications of the system. If then, the natural frame is kept in a perfect sound and healthy state, and every organ performing its functions properly, there can be no union of the predisposing cause, which is the noxious effluvia or miasmata, with the exciting, which is an impure state of the blood, and depraved condition of the general constitution, and consequently no disease.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets which may be obtained of agents gratis.

Prepared and sold, wholesale and retail, by A. B. SANDS & Co. Druggists and Chemists, 273 Broadway, New York. Price one dollar per bottle; six bottles five dollars. For sale by [oct25] L. J. HIGBY.

SAY! STRANGER—have you been in LUDINGTON & Co's Store on the corner, since they have received their Fall stock of GOODS? If you have not, I call a living you to go. It is a strange thing to find so much quantity of Goods, and so equal an assortment, in any one store. I have often heard people say that they had a very large stock of Goods, but I never in all my life found their stock was so immensely large. I have been in all the so called "Cheap Stores," "Cash Stores," "Cheap Cash Stores," "One Price Store," "Great Excitement" Stores, "25 per cent less than any other House in the Territory" stores, "Penny Stores," "New Stores" "Western Stores," &c. &c., but after visiting all, I put LUDINGTON & Co's store down at extra No. 1. You will find them willing to wholesale or retail Goods cheap for cash, at one penny, which is a fact, and 25 per cent cheaper than any other store in town, and they have a fine assortment of Fancy Goods and will sell as cheap as can be bought at any new store in this Western country. They have, according to the best authority and my own observations, the largest and best selected assortment of Goods in Milwaukie, and their prices appear to give first rate satisfaction among the people. It appears strange, but it is nevertheless true, that they should sell so many Goods to so many people. Why! you can hardly go into any town in Wisconsin, but what you will see undoubted evidences that they are doing a tremendous large business. As far out as the Mineral region—yes! miles further you will see dry goods boxes, barrels, kegs, &c &c with Ludington & Co's name on, which is a strong indication that they were sent there from their store, filled with Goods. Ask the principal residents of Milwaukie, Washington, Dodge, Walworth, Portage, Fond du Lac, Marquette, and numerous other counties, where they buy their dry goods, groceries, hardware, crockery, boots and shoes, leather, stone ware, wooden ware sash, glass, ropes, paints, oils, pork, fish, salt, lumber, lath and shingles, and Minor & Horton's celebrated unrivaled Pianos—they will tell you at the "Old Corner Store" in Milwaukie. Ask them still further, where they sell their produce, wheat, corn, oats, barley, timothy and flax seed, beeswax, hides, &c &c. and who gives the highest cash prices, and they will tell you LUDINGTON & Co. of Milwaukie. oct9 C.
